

# Build A Package From Your Repertoire

Below are two lists of songs that might be in the repertoire of a chorus or quartet. Imagine that you belong to one of these groups. You know the songs, and you feel that you perform them all at a consistently good level, so they're all candidates for inclusion in your package.

Brainstorm a package theme and choose four songs to put into your 15 minute performance package. You must include at least one contestable song.
